5:45 PM YOU MATTER TOO: SELF-CARE AND BOUNDARIES
PRESENTED BY LINDA ROCKWELL, MPA

Linda Rockwell, MPA currently serves as Veterans Program Coordinator with JourneyCare and administers community education. This program will focus on the important role self-care plays in a professional caregiver's ability to provide optimum care to patients and residents. Learn how to recognize and avoid consequences of inadequate self-care, such as burnout. Setting and maintaining healthy boundaries will also be discussed.

6:45 PM THE DYSFUNCTIONAL MODERN FAMILY
PRESENTED BY PECK RITCHEY, LLC

The family dynamic on the hit ABC sitcom "Modern Family" can be so outrageous it is funny. But, unfortunately, in our experience, there are certain family issues that are far from funny; for example, when the family is under extreme stress from taking care of an older parent or loved one. In this seminar, an elder law attorney will break down this family dynamic and offer solutions on how to communicate with families dealing with dementia. Dementia will also be addressed in the family system from the court's perspective, including pre-planning that is available upon a diagnosis of early-stage dementia all the way through guardianship and deciding who is the best person to act as guardian when the family is fighting.
